

INFO:

ISOPTERA is a three-headed psychedelic-hardrock steam train, driven by spadefuls of blues and stoner-rock.

Since almost ten years this three brothers obscure the brains of their audiences while they have developed their very unique and own style. Join the journey of wide instrumental sections, exaggerated solos on every instrument, heavy riffs and melodies that will push you into other dimensions.

They gained experience by supporting bands like **Blues Pills, Red Fang, Weedeater, Kadavar, Graveyard, Horisont, Glowsun and many more...**

They are working on their **third studio album** to release it in 2019

ISOPTERA ist eine dreiköpfige Psychedelische-Hardrock Dampflok die mit schaufelweise Blues und Stoner Einflüssen zum qualmen gebracht wird.

Sie haben Ihren ganz eigenen Stil entwickelt, denn schon seit knapp 10 Jahren vernebeln die 3 Brüder den Zuhörern die Birnen und nehmen Sie mit auf eine Reise durch tragende instrumentale Passagen ,ausufernde Solis auf allen Instrumenten, harte Riffs und Melodien die einen komplett in andere Dimensionen drücken.

Als Support für Bands wie **Blues Pills, Red Fang, Weedeater, Kadavar, Graveyard, Horisont, Glowsun und vielen mehr ...** hat die Band Erfahrungen durch Shows und Festivals im ganzen Land sammeln können.

Mittlerweile ist auch schon **das dritte Studio Album** im Entstehungsprozess.

They released a 3 Song demo album in 2015
Their first full album "Space Sucker" in 2016 on CD and digital download.
The second album "Phasenverschiebung" was released in 2018 also on CD and digital download.
